CYCLING 2026

CASTELLI

DEVELOPED AND TESTED WITH THE PROS

Just like Soudal Quick-Step, we leave nothing to chance, and we share the same focus on results-driven innovation in everything we do. Our race clothing is the result of CFD (computational fluid dynamics) modeling followed by extensive pattern engineering and fabric research, then further testing in the wind tunnel and on the road. And those products in the collection that are not made for WorldTour racing are still heavily influenced by the feedback and knowledge we acquire from working with the pros.

With Castelli Custom you can have the exact same pieces as the professional athletes. Not less—expensive replicas, but the exact same pieces made using the same fabrics, and components, with the same fit and finish, by the same people who produce the pieces you see on the pros racing in the WorldTour.

WHAT IT IS / PRODUCT FEATURES

More than a decade of speed innovation and knowledge. Our fastest jersey is now faster.

- CFD-based fabric placement and seam construction
- Bonded sleeve endings for comfort
- Lightweight body fabric for optimal cooling, breathability, and comfort
- Elastic at waist to keep jersey in place and support loaded pockets
- 3 rear cargo pockets
- YKK® Vislon® zipper for easy use

MORE THAN A DECADE OF SPEED
INNOVATION AND KNOWLEDGE. OUR
FASTEST JERSEY IS NOW FASTER.

In the world of performance cycling, we seek out more watts and more speed from our equipment. Dressing for speed is one of the best ways to get faster, since 80% of the drag on a cyclist comes from the body. Drawing on more than a decade of innovation and knowledge in making professional riders faster, the Aero Race 8S Jersey is the result of using the most modern methods and fabrics to create the fastest jersey we've ever made. The S stands for "speed." The sleeve construction uses CFD engineering for optimal seam placement. The engineered ribbed shoulder fabric has been designed specifically for the greatest aerodynamic advantage at race speeds, with a CdA savings of up to 6% over previous aero jerseys. The rest of the jersey is designed for maximum comfort. The body fabric is smooth and stretchy, allowing for a perfect fit, and it feels great against the skin. The elastic at the waist keeps the jersey in place while supporting the three back pockets when they are loaded. The Aero Race 8S Jersey is the ultimate piece of equipment to help you turn your watts into speed.

ROSSO CORSA

CLIMBER'S 3.0 JERSEY

TA0605

SIZES

XXS-3XL

WHAT IT IS / PRODUCT FEATURES

Created for the hottest days and biggest mountains, this jersey allows ample airflow, is quick to dry and blocks more than 90% of UV rays on your back. A great choice for your long summer rides, or add a base layer and it's a three-season jersey.

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight and aero efficiency
- Airflow shoulder construction
- Lightweight fabrics for high breathability
- Elbow-length stretch sleeves with raw-cut edge
- Full-length covered zipper
- Drop tail for perfect pocket placement while keeping jersey fitting well at waist

LIGHT. DRY. FAST.

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for the rigors of pro racing in hot weather and in the high mountains. It's extremely lightweight and features open fabrics for additional airflow and quick dry-ing. And by using the same patterning as the Aero Race Jersey, we make sure you get maximum aerodynamics as well. Even if you don't race over the Galibier this summer, you'll love the soft stretch and great fit of this jersey, and you'll appreciate how it keeps you cool on the hottest days. Maybe you'll even do like the pro riders do and use it on wet days because it doesn't soak up any moisture.

ESPRESSO JERSEY
TA0706

SIZES
XS-4XL

WHAT IT IS / PRODUCT FEATURES

Designed and engineered with an emphasis on comfort and performance, no matter what type of ride you are planning on today, the Espresso Jersey is the best choice.

- Castelli engineered Air_0 Stretch fabric for breathability, comfort and perfect fi
- Fabric optimized for breathability and aerodynamics
- Raw-cut sleeve endings for comfort
- Three back pockets with fourth zippered security pocket for valuables
- Full-length YKK® Vislon® zipper with easy-use zipper pull
- Elastic at waist with silicone to keep jersey in place
- Reflective tab for added visibility

YOUR NEW FAVORITE JERSEY

When we set out to make this jersey, we wanted the jersey that we'd always reach for the second it was washed and dry after the last time we wore it. No matter if you normally wear an aero race-fit jersey or a more regular cut jersey, the Espresso will be your new favorite jersey. First, we focused on the fit and fabric of this jersey. We developed a fabric that would allow for a close-to-body fit without being constrictive or feeling tight. The fabric we developed also offer great breathability and moisture management, and as an added bonus, we found that the fabric tests well in the wind tunnel too! Next, we focused on the waist and pockets, so that you can load up the pockets when a long day is in store and nothing moves around. There is a fourth zippered security pocket to keep your valuable safe. Finally, we use a tried and trusted full-length YKK® Vislon® zipper. We're sure that this will be the jersey you always go to, no matter what the ride is that day, because Espresso is always a good idea

WHAT IT IS / PRODUCT FEATURES

Comfort and aerodynamics meet in the fastest, most comfortable Free Aero Race Bibshort to date.

- Aero-optimized Forza2 Stretch fabric for maximum comfort and aerodynamic advantage
- Aero-optimized fabric delivers 3% decrease in CdA
- Lightweight minimalist stripe mesh bib straps to minimize weight and keep you cool
- Silicone leg grippers to keep leg endings in place
- Progetto X2 Air Seamless seat pad for comfort even on your longest rides
- Back pocket for extra storage or race radio
- Short fabric rated to 50+ UPF protection

DEVELOPED TO MEET THE DEMANDS OF THE PERFORMANCE CYCLIST.

From your local training route to the world's toughest bike races, the Free Aero Race S Bibshort was developed to meet the demands of the performance cyclist. When you swing a leg over a bike, the first thing you want out of your bibshorts is comfort. The Forza2 Stretch fabric molds to the body without constriction, allowing the fabric to move with every pedal stroke. The bib straps are kept lightweight and minimal while still being supportive, stretchy, and breathable to maintain a high level of comfort. The silicone grippers at the leg endings keep the short in place right where you want it. And, of course, we've used our Progetto X2 Air Seamless seat pad so you can stay comfortable even on the longest training days. In the modern world of performance cycling, aerodynamics has quickly become one of the most important components. After countless hours in the wind tunnel, we've aero optimized the bibshort to give you a 3% decrease in CdA, making it the fastest Free Aero Race Bibshort we've ever created. This means every watt you produce can be used to make you go forward faster.

WHAT IT IS / PRODUCT FEATURES

The next evolution of the suit that started a revolution.

- CFD-based fabric placement and seam construction
- Lightweight body fabric for optimal cooling, breathability, and comfort
- Aero-optimized Forza2 Stretch fabric for maximum comfort and aerodynamic advantage
- Silicone leg grippers to keep leg endings in place
- Progetto X2 Air Seamless seat pad for comfort even on your longest rides

The next evolution of the suit that started a revolution. Before the Sanremo Speed Suit made its debut in 2011 at Paris-Roubaix, the thought of wearing a speed suit for anything but a time trial seemed insane. But after it achieved victory in its first outing, the way cyclists dressed for racing changed forever. In its latest evolution, the Sanremo S Speed Suit is even faster. The top part uses our newest and fastest Aero Race 8S Jersey with CFD seam placement and engineered ribbed fabric on the sleeves for an aerodynamic advantage. The bottom is based on our new aero-optimized Free Aero Race S Bibshort. As always, the suit opens completely in the front for added ventilation and easier nature breaks and has three pockets on the back for storage. We've also used our Progetto X2 Air seat pad for comfort during the toughest rides or races.

WHAT IT IS / PRODUCT FEATURES

The fastest suit for racing against the clock.

- Pure speed equipment, created for WorldTour racing
- Developed using years of experience of CFD analysis, wind tunnel testing, and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and above
- Reduced seaming for maximum aerodynamics
- No-sew mesh race number holder to prevent number flapping in wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

THE FASTEST SUIT
FOR RACING AGAINST THE
CLOCK

Having access to the fastest riders in the world definitely has it's benefits. And thanks to the UCI rules meaning we need to make this product commercially available, those benefits can also be offered to you. After spending countless hours in the wind tunnel at the Politecnico University of Milano we have tested and optimised this new Body Paint V TT suit to be the fast for the widest range of conditions. The real benefits of the suit are felt at speeds above 45 km/h and the suit is optimised for extreme time trial positions. The fabrics and materials are intricately sourced and placed together, to ensure we see the best results in the wind tunnel and on the road.

KISS^{air²}

WHAT IT IS /PRODUCT FEATURES

Simply engineered to be the fastest suit for racing against the clock.

- Pure speed equipment, created for World Tour racing
- Developed over two years based on hundreds of hours of CFD analysis, wind tunnel testing and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and up
- Reduced seaming for maximum aerodynamics
- Mesh race number window to prevent number flapping in the wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

THE FASTEST SUIT
FOR RACING AGAINST THE CLOCK

Having access to the fastest riders in the world definitely has it's benefits. And thanks to the UCI rules meaning we need to make this product commercially available, those benefits can also be offered to you. After spending countless hours in the wind tunnel at the Politecnico University of Milano we have tested and optimised this new Body Paint V TT suit to be the fast for the widest range of conditions. The real benefits of the suit are felt at speeds above 45 km/h and the suit is optimised for extreme time trial positions. The fabrics and materials are intricately sourced and placed together, to ensure we see the best results in the wind tunnel and on the road.

CASTELLI CYCLING

PRO MESH W SLEEVELESS
TA4300324

SIZES

WOMEN'S OUTERWEAR

CASTELLI CYCLING

TEAM LONG SLEEVE W JERSEY
TA0404

SIZES
XXS-2XL

WHAT IT IS / PRODUCT FEATURES

Made to keep your core warm while providing enough ventilation to keep you from overheating. Brushed fleece inside for warmth.

- Warmer fabric on body, with lighter fabric on sleeves for greater versatility
- Set-in sleeve construction
- Reflective tabs
- Full-length covered zipper
- 3 rear pockets

CASTELLI CYCLING

PRO LIGHT W WIND VEST
TC4300481

SIZES
XXS-2XL

WHAT IT IS / PRODUCT FEATURES

Lightweight and packable wind shell that fits close to body with a stretch breathable back and high collar. It effectively blocks wind on the front without causing overheating.

- Impossibly light weight and compact wind vest
- Printed woven front and shoulders with low air permeability to block wind while remaining breathable
- Mesh back for full breathability
- YKK® Vislon® zipper for easy opening and closing

- 1:1 foldable square construction
- Sublimated graphic
- Summer weight

SEAT PADS

PROGETTO X²

Pro-level seat pad for maximum comfort. Seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS^{air}²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.
